GLASS PLANT

At Utica Destroyed By Fire
Sunday Morning

Loss Reaches \$60,000 With
Insurance Of \$30,000

Utica, Ohio, Dec. 18.—Fire of unknown origin early Sunday morning destroyed the main buildings of the Advance Glass Company here, causing a loss of \$60,000, with about \$30,000 insurance. The company manufactured cathedral glass and employed 50 men. Fred Waitjen was the principal owner.

The plant was outside the corporate limits of the village and it was beyond reach of the fire department. Utica, in the past year, installed an up-to-date water system, but had no chance to try it Sunday morning. The plant may be taken to Newark, as the company had considerable difficulty in getting adequate gas pressure.

OBERLIN BUSINESS COLLEGES CLOSES SUCCESSFUL TERM

The Fall Term at the Oberlin Business College which closed last Friday was one of the most successful in the history of the school. The attendance was larger than for several years, and great enthusiasm was maintained from the beginning to the end of the

term. No school has a finer class of pupils. Business firms seem to prefer Oberlin students.

The Winter Term will begin Jan. 2, 1912, and as new classes will be formed in all branches, it is one of the best times of the entire year for new students to enter. A course in this school means a good position for any young man or woman.
